Nazis' Use of U. S. Mails to Help Hitler and Cong. McFadden's Attack Condemned

(Not printed at Government expense)

Congressional Record

SEVENTY-THIRD CONGRESS, FIRST SESSION

In the United States Today, the Gentiles Have Slips of Paper While the Jews Have the Gold and Lawful Money

SPEECH

HON. LOUIS T. McFADDEN OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Monday, May 29, 1933

Mr. McFADDEN. Mr. Chairman, this repudiation bill is in direct opposition to the Democratic Party platform of 1932 upon which Franklin D. Roosevelt was elected President of the United States.

CONGRESSIONAL RECORD CONTAINING CONG. McFADDEN'S CRITICIZED SPEECH

HOUSE OF REPRESENTATIVES U. S.

Congressional Record

FRANKED ENVELOPE USED IN MAILING OF ANTI-JEWISH PROPAGANDA

Federal authorities here are investigating the mailing of anti-Jewish propaganda to persons in Boston and other New England cities in envelopes bearing the frank of Congressman Louis T. McFadden of Pennsylvania and containing a speech by Mc-

the child." So with these wreckers and violators of law and order in office. Mr. Chairman, I think it would be more orderly and less expensive and that it would tax the patience of the country less if Roosevelt sent his backers home to their chosen lairs in Wall Street and himself attended to his own executive business. If he has a yearning to be a legislator, let him.

He said he had often mailed literature of his organization but that it carried full postage. He described his group as an "American Fascist" organization and declared Christian was its president.

He described it as a group to "promote a monetary system based on human labor instead of gold and said it had no connection with Italian or German Fascism, except that some of its beliefs coincided."

His attention was first called to a letter received by a Boston man in a letter bearing the frank of Congressman McFadden on the envelope. The letter consisted of a reprint of a speech made by the congressman. It was mailed neither by his home district nor in Washington, but from a point 1000 or more miles distant from either.

It is said in a letter to regulations governing the use of the postal frank.

This letter was followed up by propaganda for Hitlerism and attacks on American governmental policies and even on the President. It had been received all over the New England area.

The most recent letters outline plans for a march to Washington, evidently to advertise Hitlerist doctrines.

Into government archives photograph copies of each of letters has found its way for the day of awaiting for the propaganda from their dream.

Among letters received in Boston and other New England cities are some from C. F. Pullan of Muscatine, Iowa, and George W. Christian of Chattanooga, Tenn., according to Brim.

Christian called himself the American Fascist Crusader for the White Shirt. Pullan called himself director of propaganda for the Crusaders for Economic Liberty.

In Muscatine, Ia., today, Pullan

of letters, to which the attention of postal authorities has been called by Alexander Brin, Jewish publisher.

Among letters received in Boston and other New England cities are some from C. F. Pullan of Muscatine, Iowa, and George W. Christian of Chattanooga, Tenn., according to Brim.

Christian called himself the American Fascist Crusader for the White Shirt. Pullan called himself director of propaganda for the Crusaders for Economic Liberty.

In Muscatine, Ia., today, Pullan

guilty to the charge and was held in \$25,000 bail by Judge Eldridge G. Davis.

Police officers testified the girl had been stabbed four times with the pick, twice in the chest and once in the left shoulder and left wrist. Mrs. Cannon was unable to appear at the arraignment.

A value giving sale that buyers cannot afford

Summerfield's TODAY

Summerfield's

23rd BIRTHDAY SALE!

Outstanding Values in the Latest Fashions

THE amazing growth of Summerfield's since its humble beginning in 1912 — is due to one thing — the faith of New England in the principles that Summerfield's stands for — honesty — integrity — reliability — good value and service.

SUMMERFIELD'S has been a leader that many stores have followed. The newest wrinkles in furniture design are found amongst our great assortments.

WE celebrate our 23rd birthday with a sale that offers to New England a large selection of new styles — up to the minute furniture that in many cases has not been offered for sale before this.

ALTHOUGH each piece displayed has been priced far less than usual, we are not using a single comparative price throughout this sale. We want our customers to judge each value by the price we set on it; not by the price it may have sold for previously.

In the majority of cases, there is sufficient reserve stock on hand of the advertised merchandise to supply every customer's needs. But you never can tell; even large quantities go rapidly in a sale like this. The safest plan is to come to the store as soon as possible — then you'll be sure of finding what you want.

THURSDAY—FRIDAY AND SATURDAY
APRIL 5, 6 & 7

SALE NOW ON, OPEN MON., THURS. AND SAT. TILL 9 P. M.

CCC TO ENROLL 9000 MORE

The enrollment of 9000 men for employment in the Civilian Conservation Corps will begin on Wednesday, according to an announcement issued from the office of Major General Fox Connor, in Boston, today.

The New CCC workers are being enlisted to replace those who joined the corps when it was started a year ago, but have since left it to return to other employment.

Several army recruiting stations throughout the state have been designated as enrollment centers for those desiring to enter the CCC.

Girl Smiles as Life Ebbs

Eastview, N. Y., April 5.—Roma Garrett, victim of leucocythemia, or white blood disease, may live until her fifth birthday next month. That was the best that physicians could say about her baffling case today.

She had sinking spells yesterday and the fact that she was holding her own was attributed to a diet heavy in iron and high in vitamins.

When she arrived at the hospital last Friday.

No further course of treatment will be decided upon, the physicians say, until blood tests establish the source of the disease, that is, the source of the white corpuscles.

SUSPECT TAKEN IN MILE CHASE

Brookton, April 5.—Arrested today after a mile chase in Halifax, for auto law violations, James J. Daniels, 34, of River St., Middleboro, will be questioned in connection with the \$28,000 holdup here on March 24, police announced.

After Daniels had been brought to court here and held in \$1000 bail on the auto charges, he was taken to Halifax, Inspector Thomas J. Fitzpatrick and Sgt. Harry P. Kearns of the local police said they would question him there.

According to Police Chief Charles Donati of Halifax, Daniels was driving a light truck carrying made over 1933 plates. It is alleged that the color had been changed, the first number changed to a "3" and a final 3 changed to an 8.

Noticing that the plates had a peculiar look, Chief Donati and Patrolman Harry Wood gave chase in a police car. He was charged with operating an unregistered auto and altering plates.

Vanderbilt Dogs in Society 'War'

St. David, Pa., April 5 (INS).—Philadelphia's suburban society set today was split into hostile factions over the fate of Mrs. Mary Logan Vanderbilt's three pet dogs. Even the hostesses and hostesses argued the question.

Resolved that Mrs. Vanderbilt's scotties shall be condemned to death.

The issue will be brought to a head tonight when Justice of the Peace William H. Buckland will raise his gavel at Bryn Mawr and open a hearing on the specific contention that one of Mrs. Vanderbilt's scotties took a playful nip at the nose of a neighbor's daughter, leaving the imprint of his teeth and ruining a perfectly good pair of silk stockings.

WHAT MRS. KETNER LEARNED ABOUT GULF-LUBE ON THE ROAD TO WASHINGTON

"I DROVE FROM WINSTON-SALEM TO WASHINGTON USING MY REGULAR 25c MOTOR OIL—AND HAD TO ADD A QUART AT RICHMOND."

"TWO WEEKS LATER I REPEATED THE TRIP AGAIN. THIS TIME I USED GULF-LUBE—AND DIDN'T NEED A QUART UNTIL I GOT TO WASHINGTON."

MRS. LEE KETNER, 705 Melrose St., Winston-Salem, N. C., Chrysler owner. If you want to save money on motor oil, read her surprising story.

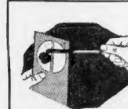

Thanks Mrs. Ketner! You're one of thousands of motorists who have cut their oil costs with Gulf-Lube—the oil that was tested by the American Automobile Ass'n against 30 other famous 25c oils in 6 average cars—and out-lasted every oil in every car!

Start saving! Switch to Gulf-Lube—and burn less oil! Go to a Gulf station now. Drain worn oil. Refill with Gulf-Lube!

© 1934, GULF REFINING CO., PITTSBURGH, PA.

New Oil test detects motor dirt!

Gulf has a new oil test that instantly shows whether or not your oil is dangerously dirty. No cost. No obligation. Ask about it. At all Gulf Stations.

Drive a Chrysler? Read Mrs. Ketner's story...

"To say I'm surprised," writes Mrs. Ketner "would be putting it mildly!"

"I discovered what a difference there can be in motor oils selling at the same price! I made two trips from Winston-Salem to Washington in my Chrysler—and learned something!...

"On my first trip to Washington, using my regular 25c motor oil, I got as far as Richmond, Va., before my oil level dropped a quart.

"Two weeks later I made the same trip again. This time I used Gulf-Lube—and didn't need a quart until I got to Washington—115 miles or 51% farther!"

SAVE MONEY! DRIVE IN AND TRY GULF-LUBE

GULF

GULF-LUBE THE "HIGH-MILEAGE" MOTOR OIL

If you value your life and your money, take the Gulf-Lube Olive Tablets nightly. How much better you will feel—and look, 150, 300, 600.

TODAY

without matter, to resist its action.

Federal detectives are getting closer to John Dillinger, able criminal. Tuesday, one of his associates was shot down and captured. Captured was the red-headed lady, friend of Dillinger, who, standing between the fire of the three bandits and the detectives, calmly backed out the bandit automobile, and took her friend, Dillinger, to safety.

Criminals, little and big, should not be deceived by the yarn telling how Dillinger escaped from prison. In the face of thirty guards, using only an imitation pistol, whittled from the handle of a broomstick, he had a better weapon, namely, cash. He bribed two men in the jail to enable him to escape, and money, not any toy pistol, got him out. The two are indicted.

Atlanta reports a plan to "reduce the sale of dairy products between 10 and 20 per cent. The producers thereby being rewarded through government benefit payments of about 40 cents a pound for butterfat, or \$150 a hundred pounds for milk.

Interesting and gratifying, for all but children, to whom the milk and the butter, rich in vitamins, are important. Diminishing the supply and increasing the price means less milk and butter for them, of course.

A Florida woman, while her husband was in prison, received from the county an allowance of forty dollars a month to help support her eight children, ten dollars a week for a family of nine, not too much. Her husband is now released from jail and the mother of eight children, the county commission that she will no longer take the forty dollars a month. She does not think it would be right to impose on the public, with her husband out of jail, all she works for her family.

Some in high places are not so particular about the public money.

March 1934, by King Pasture (S.S.)

Sensible Way To Lose

Start taking Krunch Salts today—that's the common-sense way to reduce.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape and fill you with a vigor and tireless energy you'd most forgotten had existed.

As a result, instead of planting yourself in an easy chair every free moment and letting fatty fat accumulate, you feel an urge for activity that keeps you moving around doing the things you've wanted to do and needed to do to keep you in good condition.

Be careful of the foods you eat—then watch the pounds slide off!

Krunch Salts are the up-to-date Fountain of Youth. Take one half teaspoonful in a glass of hot or cold water tomorrow morning and every morning, cut down on pastry and fatty meats—go light on potatoes, butter, cream and sugar—and if they don't change your whole life about reducing, go back and get the small price you paid for them. You can get a bottle of Krunch Salts—lasts 4 weeks—any progressive druggist anywhere in the world.

SOME WOMEN ALWAYS ATTRACT

You want to be beautiful. You want the tireless energy, fresh complexion and pep of youth. They're Edwards Olive Tablets, fresh from the laboratory of the famous Dr. J. C. Edwards. They're the only Tablets by a famous doctor and a famous chemist, known by their olive color. They act easily upon the bowels without griping. They help cleanse the system and tone up the liver.

If you value your life and your money, take the Edwards Olive Tablets nightly. How much better you will feel—and look, 150, 300, 600.

LEAGUE FOR SUGGESTS WAR ON MAKERS OF CONFLICTS

Gardner Resident Asks Jail or Execution for Those Who Force United States Into Foreign Entanglements

"If nations will go into war, then why not individuals."

Asks John B. Kelly, of Gardner
So let us war on those who lead us into war, and thus prevent war, is the sense of his communication accompanying a long list of signatures protesting against the United States entering the World Court and League of Nations.

Mr. Kelly is rather extreme in his suggestions, but it shows how deeply many Americans resent the activities of the advocates of unpreparedness.
Here's how Mr. Kelly feels:
"In connection with the list of signatures herewith enclosed, I suggest that a law be enacted immediately whereby every so-called American, or otherwise, attempting to drag this nation into the League of Nations or World Court, be either jailed for life or executed; which should have been done to all who were instrumental in dragging this

native into the World War."

R. M. Lasee, Jr., of Providence, has taken such a personal interest in the House Newspaper Campaign that he has canvassed his neighborhood and has sent several hundred signatures.

Petitions blank are now available at most of the general merchandise stores, cafes and hotels throughout Greater Boston.
Your cooperation is asked to make emphatic the protest against any meddling in European affairs. Thanks also may be obtained from the World Court Petition Editor, 5 Winthrop Square, Boston.

Pastor Accepts Call

Rev. Carl C. Clarke has accepted the call to the pastorate of the First Methodist church, Somerville, and will preach his farewell sermon at the First Methodist church, Medford, next Sunday.

Schoolboy Troubles Just a Mere Myth to Bridgewater Police

9 WIDOWS LOSE BLAST VERDICT

New York, April 5 (AP)—Nine widows sat stunned today when a jury denied them damages for the deaths of their husbands in the steamboat Observation disaster in 1932.

The nine men were among 72 persons killed when the vessel exploded while carrying workmen to their jobs on the new Rikers Island penitentiary in the East River. The women each brought suit for \$20,000 against the P. J. Carlin Construction Co. and the Alben Godfrey Whale Creek Co. When the verdict was announced, silence fell over the court gathering, composed mostly of the widows and their children and relatives, who had been confident of victory.

5 Severely Hurt When Buses Crash

Rensselaer, N. Y., April 5—Five persons were taken to a hospital when two Albany-bound buses collided. Several other persons were cut by flying glass.
The accident occurred at the Quaker Run off of the Albany-Newark highway and U. S. 9, which joins Pittsfield, Mass., and Albany.

H. B. MURDOCK PASSES AWAY

Harold B. Murdock, 72, former Boston banker, author and father of Dean Kenneth B. Murdock of Harvard, died today at his home, 31 Middlesex rd., Brookline.
Since 1929 he has been director of the Harvard University Press. His son was one of three men who led the fight for graduation of Harvard prior to appointment of James Bryant Conant.
Murdock had been president of the National Exchange Bank and vice-president of the National Academy of Arts and Sciences, and a member of the American Antiquarian Society, the Colonial Society of Massachusetts and the Massachusetts Historical Society. His authorship was chiefly in the field of history.

LIQUOR BOARD FACES TEST

The refusal of the Somerville licensing board to issue liquor selling permits to three establishments located less than 300 feet from churches was being looked on in many parts of the state today as a test of the "home rule" privilege of granting liquor selling permits. When the licenses were first refused by the Somerville board, the applicant appealed to the state alcoholic beverage control commission. The commission overruled the decision of the Somerville board, which then announced it would stand firm on its refusal. Members of the board pointed out today that they were not asking a controversy with the state board and wished to co-operate with them as far as it was reasonable. They expressed the opinion, however, that some change should be made to allow municipalities the final decision.

Moose Members to Stage Frolic

Moose members from the entire North Shore will gather in Lynn Sunday for their semi-annual frolic, starting at 2 p. m. at Father Mathew hall on Summer st.
More than 100 candidates will be invited by George Cheney, Great North Moose, assisted by a staff from various lodges exemplifying the degree. At 8 p. m. there will be a banquet in LaSalle hall, followed by an entertainment.

Pen Mightier Than Fist at School These Days

With split infinitives absolutely barred, pupils of East Bridgewater schools squared away with adverbs, adjectives and what not today under a new order that has banished all fistfists in the settlement of childish arguments.
If Edward Adams, for instance, thinks that Roscoe Stevens Edridge "done him wrong," Edward can't swing a sturdy right to the Edridge chin. Neither can he clamp on a punishing headlock nor a bone-jarring body slam.
"This is the joint edict of Police Chief Everett F. Russell and School Supt. James G. Reardon.
"No fighting allowed. Write a composition on kindness instead," they ruled.
Parents first complained about the battles royal, particularly about the greater school. But in their clothes, scratched faces and bloody noses were becoming too numerous.
The parents talked to the chief, the chief talked to the superintendent and they both talked to the children. Their tones were kindly but firm.
Today East Bridgewater claims the only school in the country—perhaps—where no circle of howling youngsters cheer on two struggling foes in dusty combat.
BE KIND IS THEME
Instead, the boys—and girls, too—write compositions on the way to be kind. Through them they have learned to be kind and everything has worked out all right.
John Packard, 17, was the first contestant. He sports a brand new baseball for his effort. Florence Heath, two years younger, led the field among the girls. Her prize was a scholar's shiny companion.
Parents are happy, and so is Miss Blanche Frost, the school principal. Chief Russell and Supt. Reardon are not only happy, but proud—proud that they have found a way to keep their 60 grammar school pupils free from the scuffles of childhood.

Check the Economy of the FORD V8 for 1934 with any Car at any Price!

This big V-8 Ford motor develops 115 more power than the motor that powered last year's great performer.

MORE cylinders give the new Ford V-8 an effortless flow of power. Flashing pick-up. Expensive car smoothness. But they do not mean greater gasoline consumption.

Eight cylinders merely indicate how the gasoline is distributed. It costs you no more if gasoline is divided in small amounts among eight cylinders instead of larger amounts among less cylinders.

The new Ford V-8 is the most economical car that Ford has ever built. It gives you even more miles per gallon of gasoline than last year's model. But that's only the start . . .

Tungsten steel exhaust valve inserts make valve-grinding virtually unnecessary. Aluminum-alloy pistons minimize carbon formation . . .

Brakes need relining less frequently because of great braking surface per pound of weight. And Ford springs—which give free action for all four wheels—add more require lubricating.

And here's good news. Ford parts cost from 17% to 59% less than parts for any car selling at or near the price.

Most important of all, however, is Ford real value. The record shows that Ford gives you greater "trade-in" value than any other car built.

Before you buy any car at any price see and drive the Ford V-8 for 1934.

WAGE BOOST IS SEEN BRINGING HIGHER PRICES

Consumer Shouldering Most of Burden, Says Forbes

The news that automobile manufacturers are getting ready to advance prices will not astonish readers of this column. A leading automobile manufacturer was quoted here when labor troubles first loomed, as declaring that the industry was compelled to raise wages, and that prices would have to be raised. He said that the majority of workers were being paid less than they deserved by the major firms, and families buying cars, including families with incomes less than \$10,000 a year, were suffering. In fact, a 10 per cent wage increase occurred.

Now you and I and everybody

The steel industry is undergoing a similar experience. It has raised wages some ten per cent. The burden, naturally, will be shouldered by consumers of steel, home-owners, railroad users, automobile owners, everybody.

A new cycle of wage increases has set in. It probably will spread widely. After all, why should workers in automobile or steel plants have their wages hoisted and w-

Boston Stocks

It is to be hoped that all needed and salutary wage readjustments will be brought about smoothly and that not too many prices will be raised before the majority of consumers are receiving enough increase in income to enable them to maintain normal volume of purchases.

It is a delicate operation: the raising a far-flung population from

The big question which will shortly force itself to the forefront is, "Will consumers accept an increase in prices without objection, without curtailing their volume of buying?"

Generally speaking, high-wage countries enjoy higher standards of living than low-wage countries. The less artificiality and arbitrariness injected by NRA and other bureaucrats, the greater the prospect of effecting the transition with a minimum of hardship and dislocation.

The new upward trend in wages tends to inspire fresh confidence and to stimulate increased buying, but the less our theoretic bureau cratic friends at Washington infer themselves into the picture and attempt to force on manufacturers and other producers higher costs, the greater the likelihood of a

PARTISAN SPLIT
OVER WIRT IS
FORESEEN

Washington, April 8 (INS)—A partisan split over the scope of an investigation of charges of Dr. William A. Wirt against his teachers appeared likely today.

Wirt, a Republican, was the subject of an inquiry, Democratic members were expected to limit the investigation and ease it to a minimum.

Speaker Harbo, who named the investigating committee, was insistent upon restrictions which would prevent an examination of the trend of the whole program.

Wirt was the subject of a hearing at a meeting in the House of Representatives on April 7.

Wirt was the subject of a hearing at a meeting in the House of Representatives on April 7.

Wirt was the subject of a hearing at a meeting in the House of Representatives on April 7.

"I don't know, girl, what do you suppose would have happened to my mother and father?"

"I don't know, girl, what do you suppose would have happened to my mother and father?"

"I don't know, girl, what do you suppose would have happened to my mother and father?"

GERMANS RAISE
DEBT CUT CRY

April 8 (AP)—View-Comet, Berlin, Germany, joined today the chorus crying for further easing of German debt at the forthcoming transfer conference between the Reichsbank and agents of foreign creditors.

Germany's debt is estimated at \$2,000,000,000, about \$1,200,000,000 is suggested by the newspaper.

Germany's debt is estimated at \$2,000,000,000, about \$1,200,000,000 is suggested by the newspaper.

GET THAT COLD
ROOTS AND ALL!
Give It No Chance to Sprout Again!
A half-cured cold is a cold germ system and festers against further attack.
Grove's Laxative Bromo Quinine cures colds, coughs, and croup absolutely safe to take. For more than forty years it has been the standard cold and cough remedy of the world, the formula always the same. Every drug store sells Grove's Laxative Bromo Quinine. Ask for it by the full name and look for the letters "B Q" stamped on every package.

BY A HUMAN WOLF!
Burmah White's amazing true story . . . America's most shocking adventure in crime—told by the "Blonde Bandit" herself!
SHE was nineteen—pretty and gay. In search of fun, she went on a blind date. That was how she met Tom White. He was mysterious—but fascinating! And for a few weeks, he made her life a fairyland. Night club—luxurious cars—thrilling drives underneath the California moon. Romance was sweet. But suddenly, she made a fatal mistake. Suddenly Tom White, the fascinating lover, turned into a wolf. Like a beast he tightened his clutch upon her. And down in a whirlpool of ruin he dragged her. Forced her into marriage—drove her into crime after crime . . . On the sixth of last September, she

'beacon hill'

By Betty Alden

EVER SINCE WE CAN remember the sextette from Lucia has been a theme song of wonder to us. Last night's rendering by Lily Pons and other stars in the Metropolitan Opera group was truly inspired.

Mrs. Pons sang the part of Lucia with a poignancy, a spiritual quality which we have never heard in this opera before. . . . daintily, rarely beautiful in the costumes of the period, her appearance enchanted the audience. . . . she was recalled many, many times and shouts of bravo, bravo, rang through the house. . . . we can recall neither Lucia but none more beautiful.

Nino Martini as the devoted Edgar satisfied the feminine romantic urge. . . . his rendering of the song of grief in the finale brought down the house. . . . it was a truly excellent performance.

Once again the boxes, orchestra and galleries were crowded. . . . long queues waited for hours before the box office opened for the balcony seats. . . . music, both charming indeed.

Mr. and Mrs. Roger Wolcott with their son, Roger, Jr., were again seen. . . . Mrs. Wolcott was tall, willowy and very aristocratic in a blue and gold lace gown and matching evening wrap trimmed with sable. . . .

Mrs. J. H. Parker in lace topped with an ermine coat was accompanied by her son, J. Harrison, Jr. . . .

Mrs. John Bottomley in attractive tete de negre lace was in her box with daughter, Ellen, who was charming in black satin with red rose on the bodice and a brilliant scarlet velvet evening wrap. . . .

Very stunning indeed was Kathleen Moran in dark red crepe gown very much off-the-shoulder with two beautiful lavender orchids attached to the slender strap. . . . her wrap was a cape of soft mink. Miss Moran is a striking looking brunette and wears her black tresses in a bang. . . .

Which reminds us that we glimpsed Jimmy Bangs on the scene with beautiful Dorothy Frothingham. . . .

Tall, dark and slender, Miss Molly Parker was very stunning in black with mink trimmed wrap. . . .

White Gown Worn by Jane Bancroft

JANE BANCROFT WAS NOTED in a white gown worn under a mink crepe. . . . We glimpsed her mother, Mrs. Hugh Bancroft, who has recently returned from the South, dining at the Ritz-Carlton last evening with her daughter, Mrs. William C. Cox. . . .

Mrs. Charles Wied in gold lace gown and sumptuous ermine coat was very handsome indeed. . . .

In blue satin and orchids, Mrs. Royden Loring was accompanied by Mr. Loring. . . .

Mrs. Ralph Flanders wore the so fashionable green under a mink coat and Mrs. Wesley Preston's beautiful ermine cape coat made us green with envy. . . . Mr. and Mrs. George Walker came in for the first curtain. Mrs. Walker regal in peacock blue crepe with beaded fringe. . . .

Trapping up the stairs like a school-girl was Mrs. Homer B. Richardson with a party and we glimpsed Mrs. Harriet Monro with a sash. . . . Anne Warren was very attractive in pale pink tulle. . . . the cold evening brought out the furs and many lovely fur wraps were noted. . . .

Mrs. Malcolm B. French was very dainty in coral lace and Mrs. Richard Cooter in the white of the mode with mink cape was in the party. . . .

Long, slim and trailing, Mary Emery was escorted by a beau and Mrs. Harry Haywood in sparkling black net and lei was noted in the throng. . . .

Grand opera was again GRAND. . . . see you tonight at Empress Jones.

Geraldine Farrar at Luncheon

THE TABBIES ARE ALL of a dither again over the Guy Murchies, Jr., . . . we hear they have forsaken their turkey farm in Connecticut and are en route to Chicago where Guy has a position on a daily newspaper, illustrating the news in pictures. . . .

Dodo Dean sailed on Tuesday for a fortnight in Bermuda. . . . simply everyone is doing it!

The Ritz has been the smart place to dine since the opera came to town. . . . seen there at luncheon were Geraldine Farrar and a group of her school friends from Melrose. . . . Lily Pons in a mustard yellow tweed with off the browe felt hat. . . . "Cordy" Hill, grandson of the late Mrs. Hill, railroad magnate, with his attractive wife. . . .

It appeared like the good old days at dinner the other evening there were so many. . . . Dorothy Dean, well known faces in the throng. . . . glimpsed Mr. and Mrs. Eastwick of Concord with Mr. and Mrs. John Amory. . . . Mrs. Nathaniel Emmons in snowy white and pearls. . . . Mr. C. C. Child with Mrs. Arthur Wood. . . . Mr. and Mrs. E. P. Lewis. . . . Mrs. E. B. Carlton. . . . Mrs. Francis Hart. . . .

After our lunch we dashed upstairs for a moment to renew acquaintance with Lucretia Bori, prima donna, the adorable Manon of Tuesday night. . . . she received us with a bright smile and chatted for a few minutes about this and that. . . . she likes America and will spend her vacation in the Adirondacks and Canada this summer. . . . she was dining with Adelaide Whitman of Union Square last evening. . . . she likes simply exemplified in her plain green sport suit with henna blouse; hair worn straight off her white forehead setting off her deep, expressive eyes. . . . her suite was simple and tastefully furnished. . . . a large bowl of jonquills and purple iris on the center table and a pot of Aesculus illex for relief in a corner. . . . there is a repose about Miss Bori and a fine intelligence; she has a charming smile. On Saturday night she is singing again for our good fortune in Pelee. . . .

MISS ELEANOR STEPHENSON HEADS USHER GROUP FOR MUSICALS

Floss' Phone Call Gives 'Dicky-Bird's' Wife Interesting News

Philip Veritas, dramatic producer, fighting to break up the romance between Mary and Dicky, a budding writer, has decided to send her to Paris for a year of study, her departure to be in three weeks. Mary explains to her Aunt Edna, that Philip Veritas' abuse intent to separate Mary and Dicky, and she suggests that Mary telephone Ned. While they are waiting for Ned, Edna drops in, and soon after Ned, answering a phone call for Dicky, receives some enlightening news.

By ADELE GARRISON
CHAPTER 4

There was something about the feminine voice inquiring for Dicky over the telephone which affected me unpleasantly. It was not the fact that a woman strange to me was calling my husband for I am well used to all sorts of feminine calls for Dicky. Secretaries for art editors and authors, club women wishing to engage him for talks, and models anxious for work give me a good cross-section of Dicky's feminine acquaintances.

But there was something that savored of insolence in this woman's voice, something more annoying still, a note of possessiveness, as she spoke Dicky's name.

However, I let no hint of my feelings show. I answered her query.

"Is he so sorry," I said sulkily, "that Mr. Graham is not in the hotel just now?"

"CHE LADY DEMANDS
"Where can I get him?"

The voice was sullen, the tone more insulting to me than the insolence which I felt the question she had just asked.

"I do not know of what possible use to you the knowledge can be," I said, "but you are welcome to it if it interests you."

"I am Mr. Graham's wife," I heard a quick, brilliant breath. Then, for an instant, there was silence.

"A MASTER STROKE
"Is that?" she asked. "I don't know," I said, "but I am sure you will find it a master stroke."

"I am sure you will find it a master stroke," I said, "but I am sure you will find it a master stroke."

"I am sure you will find it a master stroke," I said, "but I am sure you will find it a master stroke."

5900 WEST MALDEN'S HIGH POLL TAX

NAME FREE TO QUEER LETTER OF PRESIDENT, TAKE TERRY'S G. O. P. JOB

Tuckerman, Tarbell, W. Newton Paralysis Marr Are Mentioned For Chairmanship

Three members of the Republican state committee were prominently mentioned today in speculation regarding a successor to Carl A. Terry, of Fall River, who unexpectedly resigned his chairmanship last night.

They are Edward Tuckerman of Hamilton, former representative and wealthy sportsman; and Edward Tarbell, state representative from Taunton and Vernon Marr of Belmont, an attorney associated with the Legal Aid Society.

A call for a special meeting of the state committee to elect a chairman will be sent out tonight or tomorrow by Charles Nicholas secretary.

The meeting will probably be held about April 10. Vice-chairman Mr. Louis M. Williams of Taunton is, meanwhile, acting chairman.

That the chairman will be chosen from among the committee's 50 members is a foregone conclusion based on precedent. At the time of a year ago Virginia Linqvist was elected chairman.

Unsuccessfully attempted to deny the choice of W. W. (Tony) LaFollette, late collector of the port, who was not in the committee.

Terry's resignation followed a conference with friends. He said he felt it essential that he devote his full time to law practice.

He was recently involved in court proceedings brought by his mother in connection with administration of the estate of his grandmother.

Through the story appear the testimonies of George W. Horlick and the A. & P. Gypsies, Frank Parker, Port, Paul Ash and his brothers and the A. & P. marriage. Following the private showing tonight, it is planned to arrange for public showings of "Carnival."

One of the last of Lillian Tashman's friends to see her alive, Roda Harris, today tells some of the story of the blind movie star who died recently.

Mrs. Harris has recently revealed that Mrs. Tashman did not impair her life by drinking, despite the popular rumor, and that an operation a year ago almost took the actress blind.

She told of the famed actress' happy childhood and of her entering Gus Edwards' rooming house in New York.

Mrs. Harris revealed how Mrs. Tashman was selected by Flo Ziegfeld for the fall role in "The Gold Diggers."

By RABIE HARRIS
Chapter 4

Two months after Lillian Tashman opened in "The Gold Diggers" at the Lexington Theater, David Belasco presented another play, "The Sun Shines Bright," at the Belasco.

It was a happy accident that playing opposite her was a handsome Irishman, named Edmund Lever.

The matinee days of these two hits did not pass without incident. One afternoon found Lill occupied with her favorite dishes.

The Sun Shines Bright, which had arrived ahead of Ed, had stepped off to attend church. Despite their difference in religion,

GIRL CRUELITIES BARRED ON CHASELSEA FERRA

A harrowing story of a girl, held captive in a camp on the shores of the Merrimack river in Massachusetts and subjected to unspeakable indignities, was revealed today by Lawrence police.

The story was briefly and dramatically told in a short note that was picked up by two boys last Monday as it floated near the entrance of the North canal.

Part of the rescue plot followed. "I am being held in a camp on the Merrimack river, near Merrimack Park, Methuen, by two foreigners—both of them Italian."

One is called Joe; the other the name could not be deciphered. They are holding me in bondage. Here follow harrowing, unprintable details.

"I can see the amusement park from where I am being held. I am being held in a camp on the Merrimack river, near Merrimack Park, Methuen, by two foreigners—both of them Italian."

Mr. Boston PLANS PROGRESS FOR N. E. BASEBALL LEAGUE

Says:—

DeGlane Has Backing
Henri Star Wrestler
George Is Unpopular

By Jack Conway

I AM surprised at the large number of wrestling fans who are rooting for Henri DeGlane, the Frenchman, to win the world heavyweight title from Ed Don Garden, an American, at the Garden tomorrow night.

DeGlane, who has more backers than any other wrestler who has appeared tonight, says the latter has

Mr. Boston, the crowd, is surprised at the large number of wrestling fans who are rooting for Henri DeGlane, the Frenchman, to win the world heavyweight title from Ed Don Garden, an American, at the Garden tomorrow night.

Indeed the Frenchman returned to the ring with his collection completely shattered he came out of his corner. He knew he did not have a chance of winning, but he felt, as champion, he should go down fighting. Referee Sam Smith saw DeGlane's condition and halted the bout and declared George the winner.

DeGlane is a permanent injury by not going to return to the ring. He displayed the same kind of guts which he did as a boy when he drove a truck loaded with a load of bricks to the bottom of a hole in the ground.

Henri Perfect Wrestler
DeGlane's record is a fine one. He has won many titles and has been a star in the ring. He is a perfect wrestler.

DeGlane's record is a fine one. He has won many titles and has been a star in the ring. He is a perfect wrestler.

President's Son Helps Give Power to Harvard Freshmen Crew in Workout on Charles

Harvard's freshmen crew displays dazzling form in hard drill. Cowan Bennett is shown directing crew, with Franklin Roosevelt, Jr., son of the President, in No. 1 position. Behind young

Roosevelt in the order named are Haskins, Hasband, Parker, Scott, Prout, Colony and Austin. The outlook for this crew is promising.

MYERSON WINS 95-Lb. Wife 'Outpoints' Dempsey After Wrestling Mate Is K. O'd

TITLE MAT GO
AT ARENA

By Jack Conway

George Myerson proved he is one of the greatest wrestlers in the world as he successfully defended his world middleweight championship against Al Vantres before 8000 persons at the Alex McLean show at the Arena.

Myerson displayed unusual speed and proved he is a master of every wrestling hold.

Myerson gained the winning fall with a reverse body hold and arm bar in 1 h. 30 m. 44 s.

The high spot in Myerson's work was the way he used a double toe hold to beat Vantres' body self-defense. Vantres has liked most of his past rivals with his body self-defense.

When he would climb the ropes to the top of the ring, he would add to the crowd's excitement by holding the ropes with both hands.

Myerson weighed in at 158 pounds while Vantres was at 157 pounds. Both men were in splendid physical condition, and traveled at a remarkably fast clip.

THE SUPPORTING BOUTS
The first bout was a hard hit and was won by George Myerson.

The second bout was a hard hit and was won by George Myerson.

The third bout was a hard hit and was won by George Myerson.

The fourth bout was a hard hit and was won by George Myerson.

The fifth bout was a hard hit and was won by George Myerson.

The sixth bout was a hard hit and was won by George Myerson.

The seventh bout was a hard hit and was won by George Myerson.

The eighth bout was a hard hit and was won by George Myerson.

MOORE SLATED FOR PILOT JOB AT HARTFORD

Hartford, Ct., April 5 (AP)—The proposed Northeastern baseball league begins to take more definite shape today, with the possibility that Charlie Moore, who managed the Hartford club in the old Eastern league, will return as the new Hartford manager.

Moore has been manager of the Boston, Hartford and Jersey City clubs when they were minor league teams for the Brooklyn Dodgers.

Negotiations for formation of the league will reach a crucial point Friday when representatives of the clubs suggested as links in the circuit will meet in Worcester.

Walter Hargrove of Hartford, New England representative of Joseph E. Carr, minor league organizer for the National Baseball Association, said cities to be represented at the Worcester meeting are Springfield, Worcester, Lowell, Manchester, Nashua, N. H., Hartford, and possibly New Bedford, Woonsocket and Lynn.

Name Van Bibber Buffalo Coach

Buffalo, N. Y., April 5 (AP)—Buffalo University officials today announced the appointment of George Van Bibber, former pitcher and now a member of the faculty of the Mount Pleasant Michigan Teachers College, as head football coach.

He succeeds Jimmy Wilson, and will act as director of physical education in addition to his football duties.

Isn't It So?

There are plenty of saps in family trees.

The greatest force on earth is the force of habit.

He dies like a beast who has done no good while he lived.

The older a woman gets, the more it costs her to look young.

Some people would like others to see them as they see themselves.

Men resemble the gods in nothing so much as in doing good to their fellow-creatures.

There are times when every girl worries for fear some man may commit suicide on her account.

Most wives make perfect lecturers.

The fellow who is stable usually has horse sense.

It is easier to prevent bad habits than to break them.

It's almost impossible to make a girl believe that a good-looking man won't make a good husband.

It is sometimes necessary to play the fool to avoid being deceived by cunning men.

TIM TYLER'S FLYING LUCK (FOLLOW TIM TYLER IN THE BIG COMIC SECTION OF THE SUNDAY ADVERTISER)

POLLY AND HER PALS (FOLLOW POLLY AND HER PALS IN THE BIG COMIC SECTION OF THE SUNDAY ADVERTISER)

A Practical, Workable Plan to Stimulate Industry

THE McLEOD BILL, now before Congress, which provides for paying in full depositors of closed banks which belonged to the Federal Reserve System, aims to correct one of the cardinal sources of instability in our economic system.

In the past, labor, consumers and investors alike suffered because they were victimized by the bankers' emotions.

Specifically, in times of expansion and optimism, bankers went out of their way to induce borrowers to take credit.

The result was a needless blowing up of enterprises, which tended to throw business in general out of equilibrium.

Then when the inevitable correction came, the period of reaction was needlessly intensified by the simultaneous effort of bankers everywhere to make lenders pay up. Financiers at this stage were covered with the emotion of fear.

DEFLATION, with all its catastrophic horrors, is merely a process of inducing borrowers everywhere to pay up abruptly.

In times of declining gross volume of business and falling profits, borrowers frequently can reduce their net banking indebtedness only through the forced sales of assets.

Such involuntary liquidation drags down the price level and bears down heavily on the whole population.

By providing for the transference of assets of closed banks to the Reconstruction Finance Corporation, which is instructed to liquidate them in an orderly fashion in ten years, the threat of further deflation through forced liquidation is removed under the terms of the sensible bill introduced by Representative Clarence J. McLeod of Michigan.

If the bill had no other merit, it ought speedily to be enacted into law.

In addition to giving debtors up to ten years to pay up, the bill also reduces the rate of interest on such outstanding loans to 4 per cent.

IT WOULD GIVE POSITIVE STIMULUS TO BUSINESS BY CONVERTING MORE THAN A BILLION AND A QUARTER OF FROZEN, IDLE, AND AT PRESENT USELESS BANK DEPOSITS INTO IMMEDIATELY AVAILABLE PURCHASING POWER.

Thus the bill would furnish a well conceived mechanism for enlarging total buying power and putting it into the hands of those who would use it.

The McLeod bill provides a formula for PRACTICAL, WORKABLE REFORMATION.

In addition, it commends itself because of the fundamental principle of equity entailed.

The banks involved were under Federal supervision, and depositors remained loyal to them under public appeals against hoarding.

If the closings of the banks resulted from inefficiency, the government as supervisor was partly to blame.

It is manifestly unjust to let the full brunt of the losses fall upon the shoulders of innocent depositors, especially in view of the fact that the government now sponsors a deposit insurance scheme which prevents recurrence of such injustices to small depositors.

Under the McLeod bill the losses, if any, will be borne by the government.

But Representative McLeod rightly feels that the ten-year period for liquidation will give the full span of a business cycle in which to find better markets for the sale of bank assets.

He believes that the assets available, plus the double liability of stockholders, assure that the government will be protected against ultimate loss.

By a stroke of the pen, the Reconstruction Finance Corporation is authorized to break the deadlock, which delays recovery.

The McLeod bill offers relief to one of the most valued groups in the country—THE THRIFTY BANK DEPOSITORS.

As an alternative to fantastic schemes of experiment, this measure offers a practical technique for doing justice to individuals while at the same time helping to rebuild national prosperity.

Show the Flag!

The Army Chief of Staff, General Charles G. Bonaparte, has ordered that the United States flag be flown at all times on all buildings of the Army.

In accordance with this order, the "stepchild" of the Government.

It is cut down to a small size, it is passed over in making appropriations, its pay is lower than that of ordinary unskilled labor.

Its officers have to fight tooth and nail for modernized equipment, for up-to-date methods of training, for virtually everything that makes for efficiency.

And in wartime it is always called on to provide a head and a backbone for the vast citizen levee which must be raised and drilled and armed and trained overnight.

Yet this country never has lost a war, and there is no greater testimonial to the ability and devotion of the Regular Army than that fact.

We think that once a year is not too often for the public to recognize the debt it owes to the handful of officers and men who represent our professional military force, and we suggest that all who think as we do show it by displaying the American flag Friday.

If there had been no Army there would be no American flag to display and no Americans to display it.

"A Peculiar Bird"

Once was current a limerick which started off in this way: "A peculiar bird is the peltan, For his bill can hold more than his belly can."

The riddle rhyme furnishes an apt commentary on our "peculiar" system of over-government—bureaucratic, wasteful municipalities, overlapping multitudinous petty districts, all laden down with excessive political payrolls and all preying on the public pocketbook.

The bill of too much government is exactly like the ridiculous peltan's bill—insatiable.

And the oppressed taxpayer is not willing to go on feeding his hard-earned money to politics.

Our Legislatures—and that includes the Legislature of Massachusetts—must make less government and less taxation the new order of the day.

Taxpayers of U. S. Fleeced by County Governments

By James T. Williams, Jr.

County government is the Dark Continent of American politics—Eugene Morris.

All over this country today people are being forced by politicians to pay for the support of an out-of-date system of government.

For the people are getting the benefit of the system of government from a recent survey shows that the debt for the maintenance of our county government, including the county unit in popular areas and by counties in rural areas, is growing in state after state.

Modern means of transportation have made obsolete the traditional areas of local government—county, township, school district.

The size of the school district was determined by the ability of children to be bused to school and not by the needs of the community.

LEONARD Electrical Refrigerator SECTION

BOSTON AMERICAN

NEW ENGLAND'S GREATEST EVENING NEWS-PAPER
BOSTON, THURSDAY, APRIL 5, 1934

WHERE TO BUY Your Leonard Electrical REFRIGERATOR

ELECTRICAL REFRIGERATION AT ITS BEST IN LEONARD

LEONARD REFRIGERATORS CHILL-OM-ETER MAKING SALES RECORDS HAS 12 COLD SPEEDS

Executives of J. H. Burke Company Confident That 1934 Will Develop Greatest Volume of Business in History of Leonard

An increase in sales of the Leonard Electric Refrigerator, over the corresponding period last year, indicates that home-makers have found all the things they want in this one refrigerator, according to J. H. Burke Co. of 221 Columbus ave., distributors of the Leonard for Massachusetts and New Hampshire.

This increase is even more impressive when it is known that Leonard beat all its former February shipping records when 222 per cent more units left the factory than in the corresponding period of 1933, according to H. W. Burritt, vice-president in charge of sales.

Shipments during January and February were 142 per cent greater than those for January, 1933.

Increased demand in the Greater Boston district has brought about wider distribution. As a result, the 1934 Leonard Electric Refrigerator is now available, not only in leading stores in the Boston shopping district, but in suburban and neighborhood stores.

Leonard dealers are carefully selected, in keeping with the policy of J. H. Burke Co. and the factory at Detroit. Each dealer has a complete display, thorough knowledge of the Leonard features and is prepared to give a complete, instructive and impressive demonstration.

BUDGET PLAN AVAILABLE ON LEONARDS

Leonard dealers, working under a complete financial service, are able to extend the privilege of budget payments to purchasers, a convenience that makes ownership of this modern refrigerator easy.

Twelve models are available, with a wide range of cabinet sizes, food storage capacities, interior arrangements and combinations of features. Leonards are built for today's needs and priced for today's budget.

There are thirty-eight features of the Leonard, which make it outstanding in electrical refrigeration. Many of these features, such as the Len-A-Dor, are exclusive, and all of them have been worked out after months of research and experimentation. The results of this research have been endorsed by the Good Housekeeping Institute of Good Housekeeping Magazine demonstrates proof of its merit.

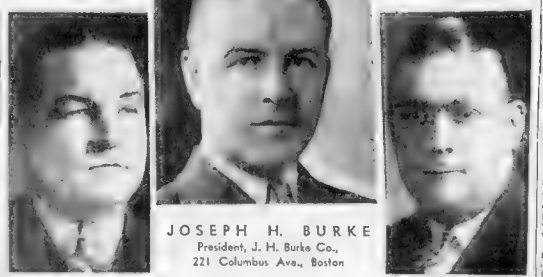

"We have made it possible for dealers to quickly obtain any model of the Leonard that they may not carry in stock, and are equipped to render every service which will satisfy their customers," stated Joseph H. Burke, president of the distributing organization.

"With business conditions and employment improved, we look for the biggest year in the history of Leonard."

The pages, which makes up this section, merit the study of everyone who plans to buy an electric refrigerator this season, whether it entails original ownership of an electric refrigerator or replacement.

HOUSEWIVES APPROVE NEW CONVENIENCE FEATURES

Leonard's 1934 Electric Refrigerators Have Won Universal Acceptance On the Basis of Their Many Exclusive Advantages

The greatest strides ever made by refrigeration engineers, who have been working for years to completely master cold for the benefit of the modern housewife, were made during the last year, according to the J. H. Burke Co., Massachusetts and N. H. Hampshire distributors of Leonard Refrigerator Company.

Selection of the new Leonard electric refrigerator, which has been made available in the new electric refrigerator, is a step forward in the art of "cold economy," which has become more popular with American women each year.

New convenience features for best results in frozen food and making new can be obtained as readily as the home-maker obtains high temperatures by turning on the gas burner for cooking. Prices of the new Leonard electric refrigerator are low, and the new Leonard electric refrigerator is a step forward in the art of "cold economy," which has become more popular with American women each year.

DAIRY RACK IS LEONARD WAS PIONEER IN CONVENIENT Preservation of Food

Back in the days when the only way to keep food from spoiling was to bury it in ice, the Leonard electric refrigerator was a pioneer in the art of "cold economy." It was the first refrigerator to use electricity for cooling, and it was the first to use a compressor to pump the refrigerant.

ICE REFRIGERATORS—
NOW THERE'S A LEONARD
ELECTRIC FOR YOU!

When you see the LEONARD you will exclaim, "Only a woman could have designed it." It so completely answers EVERY feminine desire... beautiful to look at... economical to own and operate... equipped with every convenience you could want! All that other electric refrigerators offer, you will find in LEONARD... and MORE! Yes, MUCH MORE! The LEONARD presents no less than 38 star features—many of them exclusively LEONARD, to contribute to your health, comfort, convenience and pleasure in the home!

new
LEONARD
THE *Complete*
REFRIGERATOR

Here is quick, safe, automatic refrigeration at its zenith of perfection! With rare beauty and task-lightening convenience thrown in for good measure! One has but to look to be convinced that LEONARD, for 53 years, a pioneer in refrigeration progress, has at one great stride outdistanced all competitors!

BUILT FOR TODAY'S NEEDS—PRICED FOR TODAY'S BUDGETS—A SIZE AND MODEL FOR EVERY HOME! Different family requirements—different kitchen arrangements—different home budgets—call for different electric refrigerators. LEONARD has provided for them all.

The same high quality of construction and the same high standards of workmanship—but with a wide range of cabinet sizes, food storage capacities, interior arrangements and combinations of features. You will find one LEONARD that meets your exact specifications. It is the outstanding VALUE of the refrigerating field!

Service and Satisfaction to Dealers

Leonard Has 53 Years of Refrigeration History

It was more than half a century ago, in 1881, to be exact, that Leonard refrigerators were first introduced to the public.

In those days, in rural communities, many Leonard owners harvested their own ice crops during the winter, while city residents were served by a dripping cart, drawn by a faithful old Dobbin and

maneuvered by a husky chap.

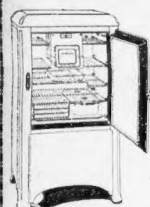

As the years progressed, so did Leonard refrigerators. A few years after their introduction, Leonard had established a country-wide reputation for making the best ice boxes, a reputation which was added to during subsequent years.

Because the quality of the cabinet is one of the chief features of a refrigerator, when Leonard started to manufacture electric refrigerators, the organization had the benefit of its many years of experience in producing cabinets which would meet the needs of this modern kind of refrigeration.

More than that, the fifty-three years' reputation aided Leonard in gaining immediate acceptance, their fame having been handed down through generations.

186 Main St.

Residents of Hudson and vicinity are cordially invited to visit our store for a demonstration of 1934's finest Electric Refrigerators.

We Extend The Convenience of Budget Payments

COLD CHEST IN LEONARD

All of the PD and LD models of Leonard have a cold chest with cover, made available by removing a freezing tray shelf.

This cold chest is invaluable for the preservation of perishable game, fish, meats and frozen food products, such as those which have come into popular favor during the past two or three years. In addition, this chest may also be used to keep quantities of ice cream, sherbets and extra supplies of ice cubes.

Housewives, who live in remote sections where fresh meat and fish are not readily available, will appreciate this feature.

Children Will Enjoy These After School Snacks

When the youngsters come home after school with sharpened appetites, it is often a puzzle to know what will satisfy them, and yet leave them with suitable hunger for the evening meal.

SPANISH CREAM
Soak together for about five minutes:
1 level tablespoon gelatin
1/2 cup cold water
Cover over boiling water until mixture becomes of custard thickness.
2 egg yolks, beaten
1/2 cup sugar
2 cups hot milk
1 teaspoon salt
Add softened gelatin to hot cooked custard and blend together thoroughly. Cook and when stirring, add when starting to thicken.

ing to thicker fold in:
2 egg whites (beaten stiff and dry)
1 teaspoonful vanilla
Tinted molds in cold water and fill with dessert. Or chill dessert in one large dish in your Leonard. Serve Spanish cream on dessert plates or in sherbet glasses. Garnish with fruit sauce or whipped cream or serve ungarlished. Serves six.

CHOCOLATE SPONGE
Soak together for about 5 minutes:
1 level tablespoonful gelatin
1/2 cup cold water
Cook, together until smooth (which is about five minutes). 1/2 cup sugar
1-3 cup hot water
1 teaspoonful salt
Add softened gelatin to hot chocolate mixture and blend together thoroughly. Cook slightly and when starting to thicken add slowly:
3 egg yolks (beaten)
1 teaspoonful vanilla
Fold in carefully:
2 egg whites, beaten stiff and dry.
Rinse individual molds in cold water and fill with dessert. Or chill dessert in one large dish in your Leonard. To serve, unmold on plates or serve in glasses. Garnish with this cream or whipped cream. Serves six.

PLANNING AIDS IN STORAGE

Only a woman can fully appreciate what it means to have a completely planned shelf arrangement that conveniently provides a place for everything.

Any housewife who has gone through the exasperation of playing checkers with various dishes while the refrigerator was losing its coolness, will realize what this plan means in time saving and economy.

The Leonard shelf arrangement gives almost unlimited convenience and flexibility in food storage.

All this is so well utilized that it is possible to store much more food in a Leonard than in any other refrigerator of the same cubic capacity.

Furthermore, greater shelf area is provided by space savers such as the dairy and bottle basket, vegetable crisper, sliding shelf and folding shelf, which permit the best placement to save space.

How Refrigeration Helps Modern Housewives

By MARTHA LEE

It has been said that a good refrigerator, well treated, is a good friend, and the truth of this statement is realized more greatly when we think back to the time of the cave-man. He salvaged his food day by day, getting just enough for the needs of a day because he knew that food could not be kept. However, as the winter season approached there had to be some way of storing provisions for this difficult time, and he gradually came to keeping the food in a cool place. He also developed the process of salting food for preservation.

As the centuries went on an underground cellar was discovered for the storing of food by the early primitive man. This country, Clifton, at this time, were developing, and as there was not enough food supply near at hand to feed the millions, newer methods had to be developed, which were the forerunners of food by ice. And, truly, modern refrigeration leaves little to be desired in the way of convenience, efficiency and attractive design.

Refrigerator Dishes
There is extra equipment available to make the filling of the refrigerator more compact. The ventilated covered bowls, which give a good circulation of air and keep the food crisp and fresh. Another convenience is a Lazy Susan, which is very practical for storing saucers or leftover dishes which fit together compactly.

In addition to the service of keeping foods fresh, the electrical refrigerator offers another important service in helping to plan the work with greater ease, particularly in the summer season that is now approaching. Often we want to get most of the kitchen work done in the cool of the morning. By planning the meals ahead we may easily prepare most of the luncheon or dinner early in the morning, even the day before if you wish, and set the meal away in the refrigerator ready to cook or to return in the late afternoon. In this way, we take full advantage of the service which our refrigerator affords.

Martha Lee

Lunches School Children Enjoy

Here are hints which will aid you in packing the kind of sandwiches and lunches the children will relish.

One Tuna Fish or Tomato Jelly and Cottage Cheese Sandwich made with whole wheat bread.
One Nut Bread Sandwich—Two Chocolate Brownies.
One Apple—Milk.
One Cheese Delight Sandwich made with whole wheat bread.
One Peanut Butter and Marmalade Sandwich.
Two Sugar Cookies—One Banana. Cocoa.

Every Leonard Shelf Useful

The Leonard electric refrigerator is designed to give "flexible" shelf room. Todday shelves, which never seem to fit any arrangement, are conspicuous by their absence in Leonard.

Here you find shelves that are adjustable to the various needs, such as odd-shaped dishes and tall bottles.

When you see the Leonard ask your dealer to demonstrate this feature.

Lacquer Cleans Easily

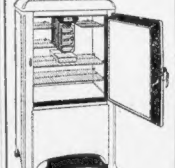

The lower priced models of Leonard, which have an exterior finish of finest quality lacquer, are easily cleaned. In fact, the lacquer improves with cleaning and is not affected by salt water milk, therefore is practical for use in seaside cottages.

STORING FOODS

In storing foods in the refrigerator, plan your marketing so that milk, fruits, cream, vegetables and other perishable foods will not have to be kept in the refrigerator more than a few days at a time. Milk and salad greens are freshest when kept in a food value and used within a day or two, at the most.

In placing foods in the refrigerator, some foods need lower temperatures than others and should be placed in the coldest part. The coldest section of the food compartment is directly below the under the cooling chamber and in this part we keep milk, butter, uncooked meats or fish and meat stock. Lettucers, berries, eggs, and vegetables, mild and soft, shortening, and cheese have second choice for the coldest section. Cabbages, cauliflower, snap-tatoes, oranges, apples and other hard fruits should be kept in the warmest part of the refrigerator, which is on the top shelf at the side of the door, because warm

NEW PRINCIPLE LEONARD DEFROSTER

Device for Keeping
Food Protected
at All Times

Efficient operation of electric refrigerators requires frequent defrosting, even as often as once a week. Frequent defrosting saves strain on the cold unit and motor and reduces the cost of operation, because more power is required when the motor has to force cold through a coating of frost.

Yet this necessary process is often delayed because the housewife dreads to expose food to warmth, usually resulting when most electric refrigerators are being defrosted.

A new principle on the Leonard eliminates the defrosting problem and keeps the food compartment protected.

While the cooling unit is being defrosted, a protective coil is maintained in the food compartment. Even the ice cubes remain frozen.

When the defrosting is completed the switch again automatically and normal operation goes on as before.

With the Leonard Steady-Kold Defroster there is nothing to remember nothing to forget, the device does it all.

The Steady-Kold Defroster is a feature of all Leonard models.

Unit Electric Co.
Near So. Station

Common, with no back and forth through the South Station, will find the store of Union Electric Supply Co. at 92 High st. a handy place to see the new Leonard Electric Refrigerators on display.

The store is just around the corner of Federal st., opposite the Western Union Building, and has always been headquarters for radios and everything electrical.

Models of the 1934 Leonard in popular favor are shown at the store's up-to-date showroom, and purchase may be arranged on most liberal credit terms.

Model in the small apartment size or the largest family model.

Plan to drop in to the Union Electric Supply Co. on your way home tomorrow.

Leonard Sold by
James Ellis Co.

The South Boston headquarters for Leonard Electric Refrigerators are at the store of James Ellis Co., 60 Broadway.

This large, progressive furniture house, which has been serving the home furnishing needs of South Boston for over fifty years, has a complete display of the new Leonards in the front of the main floor.

The same convenient plans of payment extended on furniture at James Ellis Co. are available on purchase of Leonards.

Rubber Shelf Supports

All Leonard shelf supports are made of rustproof, nickel-plated brass, covered with rubber. The shelves are thus anchored securely in place against the annoying tilting, so common with some shelves.

Small Apartment Leonard

Model S11, a compact size that fits a kitchenette. Interior: Leonard porcelain. Food storage space 4.35 cubic feet. Shelf area, including bottom and defrosting tray, 8 1/2 sq. ft. Height, 51 3-32 inches. Depth, 24 1/2 inches. Width, 24 1/2 inches. Ice capacity, 2 freezing trays; 41 cubes (3.4 lbs.) at one freezing.

Contrary to the belief possessed by some wives, men do like a dish that has piquancy of taste, something different from the usual steaks and chops. And with summer just around the corner, there exists a real need for dishes which will tempt delicate appetites.

With the aid of your Leonard, you can make many delightful entrees. Several are suggested. Try them.

Cheese Souffle

1 cup milk
3 eggs yolks
1 teaspoon salt
1 cup grated American cheese
3/4 cup cold water
1/2 cup boiling water
1 tablespoon gelatine

Make a custard of first four ingredients and cold. Soak gelatine in cold water, dissolve in hot water and beat well. Pour cooled custard over the wet-beaten whites of eggs, add well-beaten gelatine and pour into wet mold. Chill in Leonard Electric until firm.

Veal Loaf

1/2 cup veal bone
Salt and pepper
2 hard cooked eggs
1 tablespoon gelatine
1/2 cup cold water
1/2 cup boiling water
1 tablespoon gelatine

Make a custard of first four ingredients and cold. Soak gelatine in cold water, dissolve in hot water and beat well. Pour cooled custard over the wet-beaten whites of eggs, add well-beaten gelatine and pour into wet mold. Chill in Leonard Electric until firm.

Chicken and Rice

2 cups steamed rice
2 cups mayonnaise
2 chopped sweet pickles
Salt, pepper, paprika
1 1/2 cups minced chicken

Combine mayonnaise and rice, then add cold roast chicken which has been cut in small pieces, and sweet pickles, chopped fine. Season well, pack in Leonard Electric freezing tray and chill for an hour. Slice and serve on lettuce with mayonnaise.

Chicken Supreme

1 1/2 cups blanched, chopped almonds
1/2 cup shredded pineapple
1/2 cup mayonnaise
1/2 cup heavy cream
Salt, paprika

Blend and chop the almonds, drain pineapple and combine with the minced chicken. Fold in mayonnaise and then cream. Season. Mix lightly but thoroughly.

APPEALS ARE WHETTED BY COCKTAILS

Delicious Spurs to the
Taste Made With
Leonard

The wise hostess knows that the old saying, "A poor beginning makes a good ending," does not hold true when she is planning a meal, because the successful meal is the one that starts with a well-chosen appetizer which causes her guests to await with keen anticipation the courses to follow.

There are many occasions when a hot soup is not the most desirable prelude to a meal, and it is then that Leonard Electric can again serve the hostess, because there are so many delicious chilled and frozen appetizers from which she may choose.

A fruit cocktail is a simple appetizer and one which is easily prepared, but if the hostess wishes something more exotic, there are frozen or jellied soups, frozen tomato juice cocktails, frozen seafood cocktails, or, as a variation from the fruit cocktail, a fruit cup such as the one with ice which is a cause of crushed fruit.

The following recipes will suggest many more exciting there are wide choice of delicious appetizers.

ICE CUBE COCKTAIL

Use equal parts pineapple, peach, pear and apricot, and a small bottle of maraschino cherries. Dice all the fruit, reserving one cherry for each cocktail. Pour the combined juices over the fruit and place in Leonard electric tray for half an hour, or prepare earlier and place in a bowl in the bottom of the food compartment for five or six hours.

CHAMPAGNE COCKTAIL

1 cup diced crab meat
1 tsp. gelatin
2 tsp. salt
4 tbsps. tomato catsup
1 tbsps. lemon juice
1 tsp. Worcestershire sauce
4 tbsps. French dressing
Salt

A renewed era of entertaining has developed during the past six months, and a Leonard Electric Refrigerator has proved an indispensable aid to the hostess of these happier days and nights.

Dainty lunches and jives for the bridge party; the man-favored cold snacks and beer; plenty of ice cubes for drinks; the frosty delicacies which may be your contribution to a social gathering in your neighbor's house; all of these are possible with a Leonard.

With a dependable Leonard in your kitchen, you can meet any entertaining emergency and know the pride which comes when your guests exclaim over your skill as a hostess.

For example, if you are bringing in friends for an ice box supper, this can be prepared in advance and set in your Leonard refrigerator ready to be served. When you arrive home, there is nothing to do but set the table and place the food on it.

Such a supper might include, potato and cucumber salad, sliced tongue, pimento wheel sandwiches, pickled, jellied strawberries, whipped cream chocolate cakes and any food drink your fancy prefers.

SEA FOOD COCKTAIL

1/2 cup tomato catsup
1/2 cup lemon juice
1/2 teaspoon finely chopped chives
6 to 8 drops tabasco sauce
1/2 cup cooking sherry

Mix all ingredients thoroughly. Then chill well in Leonard Electric. Allow 1/2 cup of shrimp, lobster or crab meat, or three oysters to each serving. Chill fish in Leonard Electric, then place in cocktail platters and add sauce. Above sauce serves six.

RASPBERRY CUP

Place a spoonful of raspberry ice in a stemmed cocktail glass, cover with red fruit mixture, and garnish with a sprig of mint.

FOXBORO, MASS.

Leonards Now Available in Many Localities

The widespread interest in the Leonard Electric Refrigerator, and increased demand, have resulted in wider distribution. In practically every suburb of Greater Boston, and in cities and towns throughout Massachusetts and New Hampshire, Leonards will be found at a leading retailer's.

Malden residents will find the Fisher Furniture Co. at 260-264 Pleasant st., a convenient place to visit for demonstration of the features that have made the Leonard the fastest growing electric refrigerator in point of sales.

The Fisher Furniture Co. feature complete home outfit and offer the service of budget payments.

In Hudson, the Poplin Supply Co. at 183 Main st., features Leonards, and will be glad to demonstrate the many advantages. This store features quality merchandise at valuable prices and also offers budget payment plan on Leonards.

East Boston headquarters for Leonard Electric Refrigerators are at the Phillips Furniture Co., 71 Maverick st. The quality and high standards of the Leonard are in keeping with the other merchandise carried by this standard home furnishing organization.

Pioneer Hardware and Hardware Co., Inc., 1026 Great Plain street, carries a comprehensive display of Leonard Electric Refrigerators, which are available for a small down payment and balance in budget terms for the balance.

Residents of Maynard, Acton and Concord who are interested in a demonstration of the 1934 Leonard Electric Refrigerators are cordially invited to visit the store of the Maynard Radio and Electric Co. at 27 Main st., Maynard. The display at this store includes the popular models available in budget terms.

At Norwood an impressive display of Leonards is shown at the Norwood Furniture Co., known throughout the community as a quality store.

East Cambridge housewives who have found the Cambridge Carpet Co. at 455 Cambridge st. a satisfactory place to buy rugs, linoleum and bedding will be glad to know that this store carries Leonard credit terms.

The Worcester showrooms of Leonard are in the store of Barnard, Sumner and Putnam at 327 Main st., Worcester.

Since Leonards have been displayed in the Brookline Radio and Music Co. at the store at 23 Market st., many residents of this fashionable suburb have availed themselves of the opportunity to have a demonstration of the features which have made this refrigerator famous.

The Green Furniture Co. of Meriden, Conn. is finding Leonard growing in popularity in this section.

Display of Leonards in the Beecher Electric Co.'s store at 40 Moody st., have been attracting considerable attention during the past few weeks in particular.

Beverly residents have found Leonard especially well adapted to climatic conditions there. They are shown at the Howes Household Appliance Co. on Cabot st. It is fitting that the oldest furniture house in Somerville, the Sloan Furniture Co. "On the Square" at Magon st. should select Leonards on their quality and value standards.

The Ross Stores at 1718 Massachusetts st., Lynn, are especially well fitted to display Leonards.

Million housekeepers may see the new Leonards at the Milton Electric Appliances store at 20 Adams st., a store which has always led in selling quality electrical goods.

ACCEPTANCE BY HOUSEWIVES UNIVERSAL

An outstanding record has been established by Leonard Electric Refrigerators in the universal acceptance by housewives all over America.

This is a splendid tribute to the reputation for quality, which Leonard has established by its record of 35 years' service in refrigeration, starting with ice boxes, back in 1891.

This wide acceptance has enabled Leonard to give buyers the benefit of huge volume sales at the valuable prices at which the 1934 refrigerators are offered.

Thousands of Leonards of all sizes are in use in every state in the union and present indications point to sales for 1934, which would double the already remarkable record established last year.

A wider distribution of Leonards in communities where they have not been heretofore available for inspection has already resulted in many sales since the first of 1934.

This section contains the names and addresses of dealers in various communities and readers are urged to find the Leonard agency most convenient and pay a visit to the store.

Ready to Plug In

No special wiring is required for a Leonard Electric Refrigerator. All models come completely assembled, ready to plug into a convenient socket. Care should be taken, however, to keep the cord free from dampness.

Leonard Feature

Leonard hardware is not only beautiful in design and finish, with alloy black and etched design, it is designed for enduring service.

FERDINAND'S IN BUSINESS FOR 65 YEARS

Frank Ferdinand, Inc., one of New England's largest and most successful home furnishing organizations, has been widely known to homemakers for 65 years.

Unvarying high standards of quality and workmanship and valuable prices have established a slogan known far and wide, "Good Taste Is Not Expensive at Ferdinand's."

The store at Dudley St. Terminal has six and one-half acres of floor space in which furniture and home furnishings of the widest possible selection are displayed.

One of the most unique features of Ferdinand's furniture stores is the large number of model rooms. A total of 100 of these charmingly furnished rooms is found in the Ferdinand stores. This is one of the largest number of model rooms shown by any furniture organization in the country.

Here, selection of suitable furniture is made easy by correctly assembled ensembles, showing exactly how the various articles look in one's own home.

Since establishment of these model rooms, they have become a Mecca for furniture buyers, especially among the younger people furnishing their first homes.

Ferdinand's Dudley St. Terminal store is quickly reached from any section of Greater Boston and convenience is further enhanced by a direct entrance to the store from the station platform, one of the few stores in the city with such a time-saving advantage.

DOORS STRONG AND MASSIVE

Doors on Leonard Electric Refrigerators are made to seal in the protecting cold. More than that, they are strong and massive.

In tests at the factory, doors have borne the weight of two men, showing how sturdy they are made.

While the average buyer would not think to check on this important detail of construction, it is well to remember this advantage in buying a Leonard.

When it is considered how many thousands of times a door is opened, strength is as essential as its cold protecting quality.

This standard of construction is in addition to the Len-a-Dor feature of door opening.

Dish Marathons

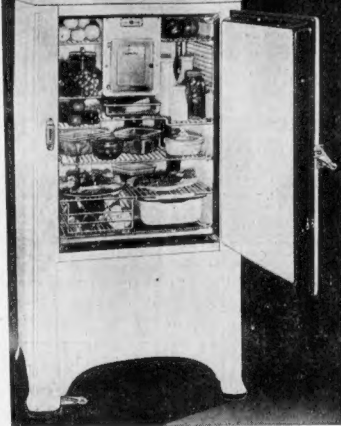

Now at an End

The days when housewives did a daily marathon with dishes to and from the electric refrigerator are ended, thanks to Leonard, because the Len-a-Dor feature makes it possible to go to the refrigerator with both hands full and open the door with a touch of the toe.

This door opening feature also saves juggling dishes, with possible breaking, by trying to open the door with one hand.

It has been figured that being able to open the Leonard while both hands are full of dishes saves 21 miles of walking a year.

Popular Leonard Model

Model PD 4, medium size, for family of four.
Interior: Leonard porcelain. Food Storage Space: 4.91 cu. ft. Shelf Area: including bottom and defrosting tray, 19.45 sq. ft. Height: 64 3-32 inches. Depth: 26 1/2 inches. Width: 32 11-16 inches. Ice Capacity: 4 freezing trays; 108 cubes (11 lbs.) at one freezing. Shown at Ferdinand's.

A Salad That Is Tasty and Hearty

Any salad is a most welcome addition to a meal, and is one of the best ways of giving an unusual touch to an ordinary meal. Jellied and frozen salads are especially useful, because they may be prepared in the morning or even the day before, and Leonard Electric will keep them in perfect condition till serving time. Try this kidney beans and vegetable salad.
1 medium sized can kidney beans
1 hard cooked egg
5 small sweet pickles
1 red pimiento
1/2 cup diced celery
1 cup black walnut meats
1 cup boiling water
1 tablespoon gelatine
2 tablespoons cold water
1 teaspoon sugar
1 teaspoon salt
1 teaspoon Worcestershire sauce.
Soak gelatine in cold water and dissolve in boiling water. Add vinegar, Worcestershire sauce, sugar and salt. Chop pickles, egg, nuts, pimiento and celery and combine all ingredients. Turn into individual molds, or one large mold and chill in Leonard Electric. Serve on a bed of greens.

Sandwich Hints

When serving sandwiches or packing them for a lunch or picnic cut the sandwich into at least four pieces. This eliminates breaking a large sandwich and losing half its filling. Special wax sandwich bags or waxed paper should be used when packing sandwiches, as such paper keeps them fresh and in good condition.

COOLING UNITS IN CENTER

Before the cooling unit was placed in Leonard Electric Refrigerators, exhaustive tests were made. Every test showed that the center cooling unit was the most efficient, not only from the standpoint of better refrigeration through more scientific circulation of air, but from the storage advantage.

The center cooling unit permits storing certain articles, requiring utmost refrigeration, on each side. It also provides more space, especially for tall bottles.

All Leonard cooling units are all porcelain, inside and out, easily cleaned and without exposed tubes.

No Broken Eggs in a Leonard

The place to break eggs is in a bowl, not in the refrigerator, where they mess up other foods. Leonard has eliminated this problem by providing a dairy basket, especially designed for storing eggs securely against breakage. This dairy basket saves shelf room, too, and may be used for countless other purposes.

Leonards, Broom High

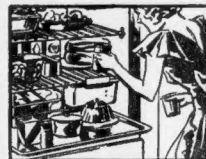

Housewives like the Leonard plan of having cabinets "broom high" for easy cleaning underneath. Then, too, legs are equipped with gliders for easy moving.

GOOD TASTE IS NOT EXPENSIVE AT FERDINAND'S

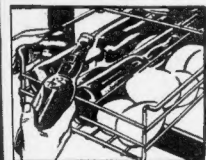

"I call that a good day's shopping"

The LEN-A-DOR—A touch of the toe and the door swings open

Service Tray—A place to set things while rearranging shelves

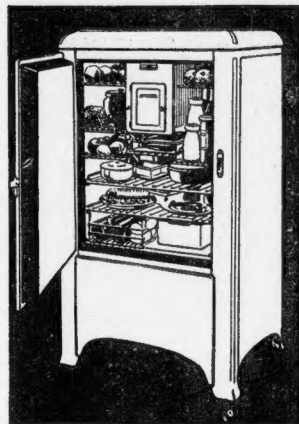

Dairy Basket—For butter, eggs, cheese. Convenient for bottles

Folding Shelf—Folds up out of the way, making room for tall bottles

ALL the things I wanted—in this LEONARD at Ferdinand's

THIS lady has good reason to be satisfied with her day's shopping. In Ferdinand's big electrical refrigerator department she found all the features she was looking for—and more. She didn't have to "skimp" on shelf room to get a beautiful cabinet. Or sacrifice style for convenience. Or accept less than the best, to meet a price. Pictured

here are only a few of many unusual Leonard features—designed to save steps, time, work, breakage, spoilage and waste. Simple, modern lines—beautiful to look at. Snowy finishes, hard as flint, non-fading, easy to keep clean. A planned interior, with a surprising amount of shelf room. See our big display of the new Leonards today.

Whether you wish to buy an electric refrigerator today or not, you are invited to visit Ferdinand's big electrical refrigerator department.

It is one of the largest in Greater Boston with experienced men to answer your inquiries. You are under no obligations whatsoever.

It is only a few minutes from downtown Boston with direct entrance from Elevated into this department.

There is plenty of parking space for your automobile. Our experienced salesman will be glad to explain how you can actually save more than the cost of one of these electric refrigerators.
